Erzurum Technical University X PepsiCo Graduate Programs - Application for Turkey is open

10:49 (9 dakika önce)

My name is Manon van Zuylen and I am in charge of academic partnerships at Agorize, an open innovation platform that bridges students to international companies.

I am contacting you on behalf of our partner PepsiCo which would like to invite your students from **Erzurum Technical University** to compete for a **2-year rotational graduate program at PepsiCo**. As one of the world's leading food and beverage companies serving more than 200 countries and territories around the world, PepsiCo is looking for talented creative people who think outside of the box to join their graduate programs.

We are calling for **final year students, recent graduates, or professionals with up to 3 years of work experience in Turkey**, who speak English and the language of the chosen location of the program!

➡ **Students can apply for Turkey until June 8th here** https://bit.ly/PepsiCo_Turkey !

If they are not interested in entering a Graduate Program in Turkey, they can also apply for another country here: https://bit.ly/PepsiCo_General

Could you please share this exciting opportunity to your students to allow them to make their career take off?

It would be kind of you if you could put me in touch with the person who can help me inform as many students as possible at Erzurum Technical University?

Feel free to book a slot in my [agenda](#) if you would like to discuss it further.

Thank you in advance for your support!

Kind regards,
Manon van Zuylen

PS: In the attachment you will find the **communication toolkit** with email templates and visuals if needed.
