YOUR ROLE is to gain practical and academical experience in cancer research studies. This opportunity will enable the interns to demonstrate their skills, to take responsibility and to make contribution to the future studies of the innovative project. Our aim is to provide the intern with the scientific knowledge, to empower hands on experience and to ornament their C.V. with collaborative activities in science.

YOUR DUTIES as an intern are the following subjects:

- ◆ cell culture techniques
- ◆ in vitro functional assays

IF YOU ARE

- ◆ eligible for Erasmus+ grant is an absolute MUST!
- ◆ enrolled as a bachelor/master student in molecular biology, biochemistry or genetics
- ◆ good communication skills at all level

WE OFFER

Erzurum previously hosted the 2011 Winter Universiade and the 2017 European Youth Winter Olympic Festival. Erzurum is also a strong candidate to host the 2026 Winter Olympics, officially known as the XXV Olympic Winter Games. Actually Erzurum is the capital city of winter sports in Turkey. To make our interns feel at home we offer:

- ◆ 50% financial support for accommodation
- ◆ free ice skating
- ◆ lunch in the dining hall of the university
- ◆ free curling

IF YOU ARE LOOKING FORWARD TO JOIN US , THEN WE ARE WAITING FOR YOUR CV to be sent to erasmus@erzurum.edu.tr with the subject line "Erasmus MBG Intern-YÜTAM"
