

Bilateral Inter-Institutional Agreements

Erasmus+ Key Action 1 – Mobility of higher education students and staff

Mobility between Erasmus+ countries (EU Member States and third countries associated to the Programme)

[Requirements for bilateral Inter-Institutional Agreements 2022-20[29]]

[For the Erasmus+ programme 2021-2027, bilateral Inter-Institutional Agreements should be concluded digitally through an IT system connected to the Erasmus Without Paper Network. This template is provided for those institutions that are in the process of connecting to the network and might need an editable version of the template. For more information, please visit the European Commission's webpage about [Erasmus Without Paper](#).]

Standard information applicable to all bilateral Inter-Institutional Agreements

The institutions agree to cooperate for the exchange of students and/or staff in the context of the Erasmus+ programme. They commit to respect the quality requirements of the [Erasmus Charter for Higher Education](#) in all aspects related to the organisation and management of the mobility, including [automatic recognition](#) of the credits awarded to students by the partner institution as agreed in the Learning Agreement and confirmed in the Transcript of Records, or according to the learning outcomes of the modules completed abroad, as described in the Course Catalogue, in line with the [European Credit Transfer and Accumulation System](#). The institutions agree on exchanging their mobility related data in line with the technical standards of the [European Student Card Initiative](#).

Grading systems of the institutions

Receiving higher education institutions need to provide a link to the statistical distribution of grades or make the information available through [EGRACONS](#) according to the descriptions in the [ECTS users' guide](#). The information will facilitate the interpretation of each grade awarded to students and will facilitate the credit transfer by the sending institution.

First part – factsheet

The factsheet contains general information applicable to all bilateral intra-European inter-institutional agreements of a single higher education institution and must be shared with all partner institutions through the Erasmus without Paper Network. The general information must be accessible to students as well and updated as needed. Factsheet updates do not require approval since only the cooperation conditions of each agreement are subject to approval of both partners.

Second part - Cooperation conditions

Cooperation conditions are defined and entered for each inter-institutional agreement and approved by both partners. This part is the foundation of each inter-institutional agreement. The information entered in this part cannot be changed after the agreement has been approved, unless agreed by both partners. Agreed changes are mutually confirmed by approval in EWP. The partners commit to amend the table below in case of changes in the agreed mobility numbers by no later than the end of January in the preceding academic year.

[The ISCED field of education code and EQF level of education are optional. The institutions can define mobility numbers for one or more fields of education and/or levels of education with different numbers if applicable. Inter-institutional agreements are not compulsory for Student Mobility for Traineeships or Staff Mobility for Training. Institutions may agree to cooperate on the organisation of traineeships; in this case they should indicate the number of students that they intend to send to the partner. Total duration in months/days of the student/staff mobility periods can be indicated if relevant.]

Contact person(s) for the agreement

[The institutions can indicate a specific contact person in EWP for the agreement. These can be administrative contact(s) at faculty level responsible for mobility agreements. A change of contact person does not require approval unlike all other changes in the cooperation conditions.]

Blended mobility option for students

[The partners can select this check-box in order to confirm mutual interest to also exchange students in blended mobility, a combination of a physical mobility with a virtual component, for any cooperation condition. Students can be exchanged in the context of a Blended Intensive Programme (BIP) or individually organised mobility. It is not necessary for the partners to define a total number of blended mobility participants or total duration. Provided there is at least one existing inter-institutional agreement between the sending and receiving institutions, there is no requirement to create specific agreements in order to award mobility grants to participants in blended mobility.]

Recommended language skills

The sending institution, following an agreement with the receiving institution, is responsible for providing support to its nominated candidates so that they can have the recommended [language skills](#) at the start of the study or teaching period:

If the institutions have any other additional conditions for this agreement.

<Other terms>

Termination of the agreement

[It is up to the involved institutions to agree on the procedure for modifying or terminating the inter-institutional agreement. However, in the event of unilateral termination, a notice of at least one academic year should be given. This means that a unilateral decision to discontinue the exchanges notified to the other party by 1 September 20XX will only take effect as of 1 September 20XX+1. The termination clauses must include the following disclaimer: "Neither the European Commission nor the National Agencies can be held responsible in case of a conflict."]

Approval of the agreement
[In cases where the institutions involved are unable to digitally approve the Inter-Institutional Agreement, the following table can be used for signatures.]
