CALL FOR APPLICATIONS:

MA in International Relations and Globalization

Department of International Relations at Özyeğin University is seeking its first cohort of students to its thesis Master's Program in International Relations and Globalization, which is designed to vest the students with an in-depth understanding of how local, national, and international institutions cope with global problems, equip them with a robust theoretical foundation to accurately evaluate and assess emerging problems as well as providing with the necessary skills to conduct empirical data-based research in order to understand the best governance examples in the world. For further information on the program and for our video on what and how we study, please visit:
